Batson will serve in the same capacity in Mora, which is located near Las Vegas. The position consists of working with farmer and rancher cooperators on soil and water conservation.

Following Batson's move to Canyon the soil conservation district was organized and, in its 13 years of activity, has included more than 400 local cooperators. In this same period of time, 60 Great Plains conservation program plans have been written.

Batson and his wife Ann have been active in the community, with Batson taking a special interest in Little League baseball. He has also served as commander and quartermaster of the Veterans of Foreign Wars and is currently treasurer of Kiwanis Club.

AEC Still Considering WT Proposal

This area still is in the running to get a giant atom smasher which will be constructed by the Atomic Energy Commission.

If the huge accelerator laboratory is built in this area it would be built at Amarillo Air Force Base and operated in conjunction with West Texas State University Killgore Research Center.

Of the 286 proposals submitted, the field has been cut to 86 and the West Texas proposal still is in it.

Senator Returning Saturday To Campus As Honor Guest

Saturday is Grady Hazlewood Appreciation Day in Canyon. Mayor Clarence Eugene Thompson has issued an offical proclamation declaring it so.

Senator Hazlewood and his wife, Andrine, will be guests of honor Saturday evening at an appreciation barbecue on the West Texas State University campus.

Here to honor them will be a whole host of important people from over the Lone Star State as well as hundreds of home folks from Grady's own Panhandle.

Governor Connally will be principal speaker for the Saturday night occasion. Earlier that day he is scheduled to address the State Democratic Executive Committee in session in Amarillo and is expected to reveal his political plans in that talk.

For Grady and Andrine it will be a lot like homecoming. The festivities honoring them will be held on the West Texas State Campus where both were students some 40 years ago.

Festivities will begin with the arrival of Senator and Mrs. Hazlewood about 6 o'clock Saturday evening. Governor and Mrs. John Connally will arrive about 6:20 o'clock and the Hazlewoods and Connallys will receive guests in a reception at the Student Union Building ballroom about 6:30 o'clock.

The reception will be completed by 7:20 o'clock and serving of the banquet-barbecue type dinner will begin at about 7:40 o'clock.

More than 1500 people are expected to flock to the campus area just east of the Student Union Building to eat barbecue beef, ham and chicken and to honor the Canyon senator.

Hazlewood, who is rounding out 26 years in the Texas Senate, operates a dairy farm north of Canyon and markets Hazlewood dairy products. Hazlewood also is an attorney.

Sitting at the head table with the guests of honor will be Governor and Mrs. Connally, Dr. and Mrs. James P. Cornette, Dr. and Mrs. J. A. Hill, Mr. and Mrs. Levi Cole and Mr. and Mrs. H. R. Fulton, Jr.

Dr. Cornette will act as master of ceremonies and will introduce distinguished guests. Dr. Hill will give the invocation. Cole is president of Panhandle - Plains Historical Society and Fulton is president of the Chamber of Commerce.

The appreciation day is being sponsored jointly by the historical society, the Canyon Chamber of Commerce and West Texas State University.

Among the distinguished guests expected for the occasion are Lt. Gov. Preston Smith, Attorney General Waggoner Carr and possibly Speaker of the House Ben Barnes. Most of the 31 Texas Senators are expected to attend the banquet.

Senator Hazlewood, known as the "Old Gray Fox" has represented the 31st District in the State Senate since 1940. His tenure in the upper house is exceeded only by that of Senator A. M. Aikin of Paris.

Providing dinner music for the banquet-barbecue will be

WT Research At Meredith In Offing

A tract of 35 acres on the southeast shore of Lake Meredith has been set aside by the Canadian River Municipal Water Authority board of directors for a biological station for research and teaching by West Texas State University.

A resolution setting aside the land for WTSU's use was approved by the board which met Monday in Borger. Arrangements for using the land will be made in cooperation with the National Parks and Recreation Board.

In a letter requesting the reservation of land, WTSU President James P. Cornette said that the establishment of a biological station to be operated by the university would provide a center for conducting ecological research related primarily to water and water-living plants and animals.

Preliminary plans would call for erection of one or more permanent buildings on the site, with facilities for standard laboratory research procedures.

Dr. William A. Cooper, associate professor of biology, already has plans for conducting research at Lake Meredith on water quality and biological productivity. He holds a grant for such study from WTSU's Organized Research Fund.

Such a biological station as is proposed for the land would serve as a research center for ecological studies of water and wildlife of the high plains region, Dr. Cornette said.

Buffs To Open Against Ohio

The West Texas State Buffaloes get the 1965 football season rolling with an intersectional contest against Ohio University, Saturday (September 18) in Athens, Ohio.

Both teams lost a number of blue-chip lettermen and will rely on newcomers to fill some key spots. The Buffaloes, for example, will have only one senior on the starting defensive unit. However, it's Butch Walterscheid, a 220-pounder from Hereford, who is one of the very best head coach Joe Kerbel has. Three sophomores, three lettermen and five transfers complete the defensive starting lineup.

From the inexperience on the defensive unit, it would seem to be a source of concern for Kerbel, but such is not so. The defense was pretty well set, secure and regarded as "tougher than last year" as early as spring practice. Backing the line will be the Wood twins, Burl and Earl, and Dave Gasser. They'll average more than 210 pounds and each has the surly characteristics necessary.

Sophomores Rick Barrett and Steve Haterius, both ex-quarterbacks, and Jimmy Campbell an end converted to tackle, have shown enough already to win starting defensive jobs. Barrett

Trophy Goes To Circle K

Delegates to the convention were Andy Spencer, president of the WT club, past president Ron Shepard and vice-president Jim Adkins. Spencer and Shepard reported to the sponsoring Kiwanis Club in their regular

Churchill, Nelson Letters Are Family Heirlooms

BY LINDA LOVE

Faded letter dated 183 years ago and bearing the signature of British Naval hero Admiral Lord Nelson has long been a valued possession of the Richard C. Corbyn family of Canyon.

A second framed letter constitutes a more recent companion to the historical paper. It is a personal message from Sir Winston Churchill to Corbyn.

The finely written letter of Lord Nelson has been handed down through several generations, and Corbyn received it from his grandmother, Ida Thomas. Her own great-grandfather, Admiral Richard Thomas, acquired it after serving as a young naval officer under the hero of colonial days. Admiral Thomas rose to be one of the senior officers of the British Navy.

The paper has been in family possession constantly, but was quoted in the famous 1813 publication of Southey's "Life of Nelson." There it was used to demonstrate the magnanimity of Nelson. The letter reads:

"This is to certify that I took the schooner Harmony, Nathanial Carver master belonging to Plymouth, but on acct of his good services have given him up his vessel again. Dated on his Majesty's ship Albemarle 17 August 1782 in Boston Bay (Signed) Horatio Nelson."

The Churchill letter was written in reply to Corbyn's request for help in getting a commission in the British Army. It is of special interest because, dated June 19, 1939, it pre-dates World War II by less than three months and indicates concern about the war at that time.

Corbyn feels special interest in the note by Lord Nelson for several personal reasons. Besides having English Naval ancestors, he is the twelfth generation in descent from Elder William Brewster of the ship Mayflower. He is also a member of the Missouri Society of Mayflower Descendants.

Corbyn has always maintained an interest in American history, as well as in geneology. The Nelson letter was received from his grandmother to be added to a personal collection of historical papers which now includes 500 to 1000 articles, he commented.

In the collection are famous words written by the men who said them. One example is a letter from General Douglas MacArthur, with whom Corbyn served in Korea. In the letter the general has put in his own handwriting his immortal statements, "I shall return," and "In war, there is no substitute for victory."

The collection includes many other types of documents, among them frontier pictures and private papers. One set is what Corbyn believes might be the most complete collection in the nation on Wild Bill Hickok.

Freshmen Increase One Third

More than 33 per cent more freshmen than last year are enrolling in West Texas State University, reported Dr. Kenneth Waugh, head of Student Personnel Services.

According to Dr. Waugh, 950 beginning freshmen students took part in orientation Monday. Adding a traditional increase in freshmen who finally enroll in the fall semester, he predicted a total freshman enrollment of at least 1050.

Eagles Calm Whirlwind 33-8 In Season Opener

Canyon's Eagles opened the 1965 football season Friday night of last week with a sweet 33 to 8 victory over the Whirlwinds of Floydada.

About 3,000 fans turned out for the game.

Still flushed by the win, the Eagles this week are girding for Levelland. They host the Loboes in Buffalo Stadium Friday night. Kick-off time is 8 o'clock.

The eagles gave all the appearance of meaning business from the opening gun.

Tom Lair ran the opening kickoff back for the score but the touchdown was nullified by a penalty.

Minutes later, Lair avenged himself by going 15 yards on a keeper to score again. Jerry Davis split the uprights and the score was 7-0.

In the second quarter, Joe Moore went up the middle from the 5 to score. Lair passed to Moore for two points and the Eagles had a 15-0 bulge.

Floydada stormed back and scored on a 15-yard pass play from John Cantrell to Waldo West. It was Cantrell to West again for two points and the Eagle edge had narrowed to 15-to 8 by half time.

In the third quarter, Lair tossed a pass to Wayne Brewer who sidestepped a defender on the 38 and went all the way. Attempted conversion failed.

Lair hit Joe Moore on a 49-yard scoring strike. Another third-quarter scoring toss of 49 yards from Lair to Moore wound up scoring and gave the Eagles a 33 to 8 opening victory.

Canyon racked up 14 first downs while Eagle defenders allowed the Whirlwinds a meager 2. Canyon rolled up 363 yards rushing but were miserly in doling out a mere 45 to the Whirlwinds.

Joe Moore was the top Eagle rusher with 133 yards to his credit. Wayne Brewer picked up 109. Canyon totaled 483 yards on offense and held Floydada to 110.

Tops on defense were Wayne Brewer, Art McAnarney and Dennis Haley. Looking good on offense were Joe Moore, Art McAnarney and Mike McBroom. Lair completed 7 passes in 15 tries.

Coach Jim Greenwood said he believes the first game will steady his team because as he puts it, "It got some of the kinks out."

"I was proud of the overall defense," he declared.

Coach Greenwood is looking forward to a tough battle in the Friday night clash with Levelland. Joe Tubbs is the ace Lobo passer. Whitsett is described as a good, fast flankerback. Greenwood says the Loboes are a big team with good overall speed.

Levelland lost to Seminole last week 20-13.

The Canyon mentor has not indicated a change in starting lineup for the Levelland game. From all appearances it will be the same as at Floydada.

In the meantime, Gary Mc-

Grady Hazlewood

(AN EDITORIAL)

Few state legislators have represented so diverse a constituency Senator Grady Hazlewood.

The fact that he is repeatedly re-elected is testimony in itself that his constituency likes the way he does his job.

There is little need to reiterate his legislative victories here since they are documented elsewhere in this issue.

Let is suffice to say that fellow legislators, governors and others in high places have held him in great esteem over the years. His voice is heard when it is raised in the councils of his community, state and country.

Grady Hazlewood has built a reputation as a champion of progress, law and justice. In a telegram this week Governor John Connally expresed himself thusly: "Grady Hazlewood Day in Canyon is a fitting tribute to the imaginative leadership you have given our state government as a senator from the 31st District".

"Grady has been my righthand man on many occasions," said Lt. Gov. Preston Smith, presiding officer of the state senate.

An "Appreciation Day" for Grady Hazlewood is a well deserved tribute to one of Canyon's distinguished sons.

Fun 'n' Folk

BY LINDA LOVE

Everything's jumping now at WT, as new and old students scurry around campus and all sorts of clubs swing into action. Fall has always been an exciting time of year, and it seems as if a college town is the most invigorating place of all--at anytime.

In my not quite three months here I've been lucky enough to meet quite a few of the folks in Canyon, both in town and on campus. And I've just begun to get an idea of the talents they have and the interesting things they've done and are doing.

Nowadays there's a lot of fun to be had, from do-it-yourself activities to personal appearances by outstanding performers, and there are plenty of folks to enjoy it all here. I plan to keep up with all the fun and the folk this year, and I hope you'll join me.

With people of all ages studying things like advanced psychology and new forms of math, some of the basic reasons for our schooling seem to fade into the background.

Following an eager reception of their National Driver's Test last spring, CBS has decided to produce a Citizenship Test this fall.

Don't know whether it will be based on the laws and orders of our land or on someone's interpretation of them, but it should be interesting to see how much we've learned--and forgotten.

It shouldn't be long before speech and music activities are in full swing in the Canyon schools and at WT. Attention to these phases of a child's schooling is so rewarding.

Achievements and awards are nice in themselves, of course, but even the slightest training pays off throughout a youngster's life, especially in discipline and awareness.

And as for parents: how else could an adult learn to be such a skilled juggler than trying to hold the heaps of purses and coats that go along on every contest trip?

Poor Frank Sinatra. All that publicity, and there are still some unenlightened souls around. I hear he stopped in a gas station in Los Angeles the other day and the attendant said, "Say, don't I know you from somewhere? You're face looks familiar."

Friend Sinatra encouraged him by prompting generously, "Perhaps in your neighborhood theatre."

I can just see the fellow's eyes brightening with recognition as he cried, "Hey, I bet that's it! Where do you usually sit?"

Have you had a chance to see any of the new fall television shows? We're in the opening week now of the new season, and if you're a TV bug and have the time, it certainly is a week so big it takes eight nights, and a lot more eye strain.

But it should be worth it this year. I don't know about you, but I'm glad to see the list of comedies, adventures, and what-not. There are a lot of different tastes in programs around, and mine pretty well run the gamut, but I can't see anything that beats plain old entertainment.

A couple of years ago ABC went off on a wild tangent for that time and began to stress fun shows (or, if you like, "escapist.") Well, a few months back they had a convention, and from what I've read there's never been a more gleeful group of TV men in one spot before.

Seems someone had finally figured out that they could give the local people what they wanted and still offer informative programs with some interest; and it worked. Now NBC and even CBS are beginning to take note.

I'm sure they know a bit more than I do about it, but you'd think they'd be influenced by some of the more down-to-earth things. Money, for instance. "Sound of Music" is about to set an all-time record in Los Angeles, after just a few months' playing time.

And in personal appearances the delightful and All-American King Family are breaking records wherever they go. You'd think they'd get the message.

"Funds are still our problem," said Mrs. Nester. "The new building is about half paid for."

TPHF Theatre Questionnaires Yield Interesting Replies

Variety of information has come from questionnaires distributed to guests during a three-day period of "Thundering Sounds of the West," musical drama staged this summer in Palo Duro Canyon.

The 1000 questionnaires were given to heads of families during the final part of the season, which ended with a total attendance record for the summer of 36,117. Final week's figures were 6250, including three nights of standing room only crowds.

"This place and story has proved to be a challenge to the imagination of all the world," noted Mrs. Ples Harper, president of Texas Panhandle Heritage Foundation.

"In this three day period, cards were filled out by people from Colorado, Wisconsin, Oklohoma, Kansas, New Mexico, South Dakota, Louisiana, Kentucky, Arkansas, Maryland, California, Washington, Virginia, Iowa, Alabama, Missouri, Georgia, Saskatchewann and Kassell, Germany," she said.

In order to understand the needs and travel patterns of their customers, the management of Pioneer Theatre distributed the 1000 cards on the final Thursday, Friday and Saturday, asking where the families had first heard of the production and also where they were from.

Of the 346 cards returned, 32 were from out of state, 3 from foreign countries, 141 from Panhandle locations other than Amarillo and Canyon, 116 from Amarillo and 14 from Canyon, and 41 from other parts of Texas.

Sources by which people had first heard of the show were 216 by word-of-mouth, 139 from newspapers, 72 from television and 59 from radio, 25 from brochures and 3 from travel guides, 10 from a billboard and 16 from other sources.

Sixty-seven Amarillo people first heard of the show through a newspaper, 50 from the rest of the Panhandle, 7 from other parts of Texas, 4 from Canyon and 2 from out of state. The Canyon News was mentioned 15 times as the first source. Amarillo Globe-News was mentioned 9 times by people outside the area and 107 times by those living in the Golden Spread.

Radio stations KBMF-FM, Spearman, and KSEL, Lubbock, as well as the several Amarillo radio and television stations were mentioned, as were the following newspapers: Amarillo Citizen, Claude News, Dalhart Texas, Hereford Brand, Lubbock Avalanche Journal, Plainview Herald, Memphis Democrat, Panhandle Herald, Lamb County Leader, State Line Tribune and Tulia Herald, all noted by Panhandle residents.

Book Given To Library

Complimentary copy of "Waterfowl Tomorrow" was presented to West Texas State University library Monday by Bob Brown, refuge manager at Buffalo Lake.

Written by 103 wildlife experts from the United States, Canada and Mexico, the work is considered the most comprehensive book ever written about North America's migratory waterfowl. It is presently going into its third printing.

The 784-page edition is made up of eleven sections, on such general topics as the amply-illustrated "World of Waterfowl," describing the various species. Other examples include "Nature and Work" and "A Helping Hand," which contains 14 chapters on waterfowl management.

"Waterfowl Tomorrow" deals with the needs of the 48 species of ducks, geese and swans on the North American continent. It is rapidly becoming one of the Federal Government's best sellers, according to the Department of the Interior.

The book is presented under direction of the Fish and Wildlife Service, Bureau of Sport Fisheries and Wildlife.

Mrs. Green Gives Pie, Cake Recipe

BY LORENA MILLER

A professor's wife, Mrs. Jimmie Green, shares her families favorite recipes for Strawberry Cake and Blueberry Pie with our readers this week.

Known among friends as Mary, Mrs. Green was born in Amarillo. She attended school in Seminole where she completed her high school education.

Mrs. Green holds a degree in home economics from Texas Technological College, Lubbock. She is a daughter of Mr. and Mrs. Joe Aguilar of Seminole and has two sisters including one in Sacramento, California and one in Tucumcari, New Mexico. Her four brothers live in Seminole, Lubbock, Sacramento, California and Houston.

Seagraves is where Mrs. Green's husband was reared and attended public schools. Later he received his bachelor and master degrees in agronomy from Texas Technological College in Lubbock.

Green joined the agriculture department at West Texas State University as an instructor in 1954. This fall he is starting his 12th year with the department. He plans to work on his Ph.D. and may use summer work at Bushland's agriculture test station as background material for his research.

"I was finishing my degree work at Tech when Jimmie first came to Canyon," said Mrs. Green. The couple was married December 26, 1955 and have two children.

Carol, their oldest child, is a first grade pupil at Rex Reeves Elementary this year and "likes school a lot," according to her mother.

The couple's second child is Jimmie, age 5, who likes to keep his mother company while Carol is at school.

"I may do some teaching when I get both children in school but I'm glad that I didn't miss out on their early rearing by working," related Mrs. Green.

"I have taken several elementary courses at West Texas State in the past few years," commented Mrs. Green. "This will enable me to teach either home economics or in the elementary grades."

An active homemaker, Mrs. Green participated in high school Future Homemakers of America and later in a similar group for college students.

"Sewing is one of my favorite hobbies," related Mrs. Green. "I like to do most of the sewing for my daughter and myself and have had a busy summer getting Carol ready for first grade."

Among other hobbies, Mrs. Green is presently preparing a twin set of chapel vases filled with artificial flowers for her cousin in Plainview.

"I need to get out in the pasture and get some yucca to finish the arrangement," she stated. Displayed throughout the Green home at 2101 2nd Avenue are potted plants of all types including several western cactus.

"When we build our own home, I plan to incorporate a small greenhouse for my collection of houseplants," Mrs. Green commented.

Ceramic tiled tops highlight the coffee table and step table in the Green's livingroom. "The ceremic gives the tables added durability and we enjoyed making them too," said Mrs. Green.

Speaking of her recipes, Mrs. Green said that the "men are the pie eaters in our family and the cake is our traditional birthday cake recipe."

Her recipes follow:

STRAWBERRY CAKE
1 box white cake mix
4 egg yolks
1 cup wesson oil or 2 sticks (melted) oleo
1 box (small) strawberry Jello
1/2 cup hot water
1/2 cup frozen strawberries, thawed

Dissolve jello in hot water. Place all ingredients in mixing bowl and blend together. Fold into mixture the egg whites which have been beaten stiff.

Pour into greased and floured pan. Bake in layer or tube pan at 350 degrees until brown.

Frost with mixture of 1 stick oleo, 1 box powdered sugar and 1/2 box of frozen strawberries.

BLUEBERRY PIE
1/4 cup sugar
1 1/2 Tbsp. flour
1/5 tsp. salt
1/5 tsp. cinnamon
1 No. 300 can blueberries in heavy sugar
1 1/2 Tbsp. butter

Combine sugar, flour, salt and cinnamon. Stir into liquid drained from berries and heat stirring constantly until thick and smooth.

Add berries and butter, mixing gently. Pour into unbaked pastry shell and cover with top crust. Bake in a moderately hot oven (400) for 30 minutes or until well browned.

Makes one 8 inch pie. Lemon juice may be added to filling if desired.

A salad supper for Canyon Study Club members was held Tuesday evening at the home of Mrs. Walter Cranmer with co-hostesses, Mrs. Mark Clapp and Mrs. Johnny Raymond.

Program for the evening meet was presented by Mrs. Truitt G. Hull. Mrs. Hull gave humorous excerpts from works of Mark Twain, Charles Goodnight and other writers of the Pioneer era.

Theme for the club year is "Portrait of the Pioneer Plains" and the first meeting was appropriately called "gettin' back in the saddle" as members were called to order for their first fall session by Mrs. Charles Brasher, president.

Mrs. Brasher also led the group in a pledge to the flag and introduced guests who were June Jones, Gloria Taylor and Jackie Ward. Mrs. Johnny Raymond gave the roll call.

Roll call programs "Water and Air Pollution" and "Our Forest Bounty" were given by Mrs. Robert Wood and Mrs. Don Sheffy, respectively. The invocation was given by Mrs. Weyman Brown.

Mrs. Gary Garner gave a fine arts report on the study of musical instruments, especially percussion. Mrs. Walter Cranmer gave the federation report discussing the history of the club.

II.

On the 23rd day of July, 1948, Plaintiff Jena Beth Winfield was divorced from Defendant William Martin. Said divorce decree was entered in Cause Number 2041, District Court, Judicial District, Randall County, Texas.

III.

The decree of divorce entered in said cause provided that Plaintiff Jena Beth Winfield, formerly Jena Beth Martin, was to have the possession, use and enjoyment of the home and furnishings belonging to Plaintiff and Defendant. Said decree also provided as follows:

"It is further ordered by the Court that in the event said defendant shall fail and refuse to make the monthly payment provided herein and shall fail to make the payments required on said loan and said plaintiff be required to make the same and make it, that she shall be entitled to be sugregated to the lien existing on said premises in her favor as against any interest in the property owned by said defendant and that she should make such payments and partition of said property be hereafter made that all of such payments so made by her shall be considered as her separate property and that she shall have a lien on said home and the community interest thereon to secure its payment together with the rate of interest which said loan now draws from the date of payment until the establishment of said lien."

Said residence is located at 4013 South Hayden Street, Amarillo, Texas and is described as Lot 12, Block No. 10 of Hermitage Addition to the City of Amarillo, Randall County, Texas.

IV.

From the date of the granting of said divorce decree, Plaintiff Jena Beth Winfield has made all except two of the mortage payments on said residence, which payments since the 23rd day of July, 1948 through the 20th day of August, 1965, have amounted to one hundred fifty-four payments of $33.30 each, or an aggregate of $5,128.20 (principal - $4,003.84, plus interest of $1,124.36). There has been no indication as to when he can be expected to return to the Eagle squad.

Buffs...

and Haterius are safetymen.

The offense showed marked improvement in last Saturday's scrimmage in Buffalo Bowl. Kerbel was especially happy with the blocking of the offensive line where the Buffs are long on experience. Six lettermen and a transfer will start up front. Ted Wheeler and Roy Armentrout are the ends, Terry Funk and George Allen are the tackles, Vern Kosub and Percy Green are the guards and Bill Uzzolino is the center. Green is the only non-letterman and he and Wheeler are the only juniors.

No less than 10 men are squabbling over the four backfield positions. Letterman David Fleming, squadman Barry Johncour and transfer Spencer Washington all have a claim on the signal calling job.

At left half, lettermen Don "Preacher" Dennis and Ronnie Mankin are the prime candidates. Mankin has scored 47 points in the two fall scrimmages, 15 of them with his toe. Dennis started the last five games of 1964, but has been bothered by minor injuries this fall.

James Williams and James Cowell have eliminated all other contenders at right half and, at least at this point, there is little to choose between them.

Brian Deady is still the top man at fullback, but transfer Tom Moody and sophomore Lew Einfalt are not far behind. Einfalt's 157 yards rushing topped all the backs in last Saturday's head knocking.

Ohio head coach Bill Hess has been pleased with his offense, but disappointed in the progress of the defense despite the fact that only two sophs will start on defense compared with a possible seven on offense.

Offensive halfbacks are so plentiful and classy at Ohio that Mac Wagner, a letterman who was second on the squad in rushing last season, has been demoted to a third team berth.

Bruising fullback Wash Lyons, the Mid-American Conference rushing leader last fall, was hurt in an industrial accident this summer and is listed as a "very doubtful starter." Quarterback Wes Danyon, a senior two-year letterman, has been injured slightly and transfer Sam Fornsaglio may get the nod there. Outstanding sophomore defensive end Gib Jepson suffered a knee injury in a scrimmage and will not play.

Thus far, the Buffaloes have been able to avoid other than very minor injuries to key personnel.

If previous scores are any indication, the game should be a close one. West Texas State won the first game between the two, 15-14, in the 1962 Sun Bowl. Ohio nipped the Buffs, 16-14, in the 1964 opener to even the series. The Buffs are 2-2 with the Mid-American Conference teams, having split a pair of games with Bowling Green.

The Canyon News wishes to extend deepest appreciation to Louise Evans for her kind assistance in preparing this edition of tribute to Senator Grady Hazlewood.

Miss Evans did most of the research and writing for this tribute section.

She made all of her material available to The Canyon News in spite of the fact that she knew The News tribute section would go to press three days earlier than would the pages of The Amarillo Daily News devoted to the senator.

For her able and unselfish offerings the management of The Canyon News is most sincerely grateful.

Hazlewood Lambasts Merit Plan

From The Austin Statesman
November 27, 1957

Senator Grady Hazlewood of Amarillo told the Texas Senate in a personal privilege speech Wednesday morning that the Board of Insurance Commissioners "violated the clear letter of the law" in naming William A. Harrison commissioner of insurance.

Harrison was rejected by the Senate in executive session after he had been named to the post by the Board of Insurance Commissioners.

Hazlewood's speech was obviously aimed at explaining why the Senate rejected Harrison.

The Amarillo lawmaker said there were three reasons for Harrison's rejection. He said the first of these was Harrison's "lack of qualifications." Hazlewood maintained that the reorganization law passed by the regular session of the 55th session provided for an "experienced administrator who shall be well informed and qualified in the field of insurance and insurance regulations." He said the law further provided that the administrator selected "shall have had training and experience in the field of insurance or insurance regulations."

He said Harrison failed to qualify under terms of the bill. But Hazlewood said the Senate would possibly have overlooked this had Harrison shown "the ability and disposition to grasp the problems before the commission during the time he was commissioner."

Hazlewood said the third and last reason for Harrison's rejection was the most serious of all. He claimed that was Harrison's failure to "look after the interests of the people of Texas, the tens of thousands of stockholders and policy holders who necessarily must look to the insurance department for the proper regulation and inspection of the insurance industry."

Senator Ever Mindful Of People In District

From Amarillo Daily News
Files of Jan. 9, 1957

AUSTIN, Jan. 8--Amarillo's State Sen. Grady Hazlewood drank a glass of milk at the Capitol Drug Store when the senate adjourned after its brief but formal opening of the 55th Legislature Wednesday then went up to his new third floor office to clean house.

He gave some "rambling thoughts" on the next four months of business in the legislative hall as he shuffled through the last sessions books and papers.

"Taxes? I'm tired of taxing the same old sources. Certainly want to broaden the tax sources if a tax bill, if one will be necessary" he mused, "--I don't know. Oil men tell me this increased production will be good for six months.

The state comptroller shares his view that the Middle East crisis will up production for about the next six months but that the increased income from this source will then slack off again."

"A 1955 report of the state insurance commission--don't know any reason to keep that," he remarked, picking up a bulky green volume and adding it to a pile on the floor.

"No, there's no gas price bill this session as far as I know. I know there ought to be one. The price hasn't increased one bit for those on long term contracts up in Moore County. This stuff about gas being competitive is a lot of hokum and a lot of 'nuttin'. There's no move being made for a bill by my constituents but I know without having to be told that prices are still very unfair and haven't been adjusted at all, as the opponents said they would be."

"Jean, I'll need some new phone books," he called to his secretary. "Get me Dumas, Dalhart, Borger, Pampa, Perryton, Canyon, Shamrock and Stinnett. I think that's all."

Anything we do on segregation is more or less a waste of time and useless. I don't

Tuition Increase Scored

(From The Amarillo Daily News)

AUSTIN, May 16--Sen. Grady Hazlewood labeled as "nothing but an admitted head tax" the tuition increase bill passed in the Senate Thursday by a narrow 15-13 vote.

Hazlewood, joining with Senators Jimmy Phillips and Culp Krueger in speaking against the bill, told Senate members "I am ashamed of you, that you would come up with something like this."

He accused proponents of the bill of wanting the measure merely because it was an easy way to raise money. The bill, which now goes to the governor, doubles tuition at state supported colleges from $25 to $50 a semester.

"They don't realize that education is not supposed to be a money-making thing," he continued.

"They talk about all these kids out here at the university driving cars. They may do that, but if just 10 per cent can't go to school because of this raise it is an injustice," he said.

"It is a burden on those kids

WT Alma Mater To Hazlewoods

Forty-odd years ago Grady and Andrine Hazlewood were students on the West Texas State University campus---the same campus on which the state's great and near great will gather to do them honor Saturday.

But the Hazlewood story is woven even more tightly into Randall County. Actually, Grady was born at Old Fort Chadburne, now a ghost town near Sweetwater.

He and his four brothers---Wallace, an Amarillo architect; Emmett, head of the math department at Texas Tech; John, an Amarillo attorney; and L.D., who is legal counsel for the Veterans' Administration at Waco---came to Randall County in the early years of the century.

They lived on a farm tucked under the cap overhanging the Tierra Blanca, not far from Canyon.

In one sense, Grady never left the Randall County farm country. While he was district attorney in Amarillo, he started a dairy farm on land about six miles north of Canyon. He had bought the land from the late L. M. Fischer, pioneer Amarillo attorney.

Grady was a hardworking student when he attended West Texas State Teachers College. He was a member of the debate team that went downstate to garner laurels for the college.

Grady still maintains an interest in the West Texas debate team.

He met and courted pretty Andrine Smith, a member of a pioneer family from Smith County. As a matter of fact, Smith County was named for her

Washington No Lure For Hazlewoods

In 1950 friends tried to persuade Senator Grady Hazlewood to enter the Congressional race which was wide open following the resignation of Rep. Gene Worley.

Worley had been named to the US Court of Customs and Patent Appeals.

Hazlewood did not choose to run.

The words he used in his public refusal seem to state the creed of the boy from the Tierra Blanca:

". . . .Last and most important, I want to live in the Panhandle because I like the people and if I were your Congressman, I would have to move to Washington where I would reside 99 percent of the time."

Spectacular Victory On Insurance

One of Grady Hazlewood's most spectacular Senate fights was made in opposition to the so-called Texas Safe Driver Insurance Plan.

Hazlewood contended that the law was unfair.

He received approbation from across the state.

"If you are successful in getting Price Daniel to throw out this silly law, and I think you will, I want you to immediately announce your candidacy for the Governor's office of Texas," a Baytown insurance-

Many Bills Flow Over Texas Senator's Desk

Acted As Governor

For a few days in the 20th Century, the Panhandle had its own man sitting in the gubernatorial chair of Texas.

One of those Panhandle men is Sen. Grady Hazlewood, veteran of the Texas Senate.

Granted the days are few and far between. Sen. Hazlewood's day came in February of 1950.

He had been preceded by the late J.N. Browning of Amarillo, who was lieutenant governor from 1902 to 1904. Browning was acting governor on several occasions.

And in 1917, the late W.A. Johnson of Memphis was the man who introduced a resolution for the impeachment of Gov. Jim Ferguson.

When Ferguson was impeached, Lt. Gov. W.P. Hobby succeeded to the governship, leaving the second place in state government vacant.

Sen. Johnson served as president pro tem of the Texas Senate, and in 1918 was elected lieutenant-governor. He served under Hobby, who won his first elective term that year. He acted as governor when Hobby was out of the state.

Sen. Hazlewood moved up to the gubernatorial chair along somewhat the same route.

Gov. Beauford Jester died shortly after the start of his second term and Lt. Gov. Allan Shivers succeeded as governor. The president pro tem of the Senate (elected by that august body's membership) became acting lieutenant-governor when Shivers' post was vacated. Sen. G. C. Morris of Greenville held the post from July, when Gov. Jester died, to the opening of a special session on Jan. 31, 1950.

Sen. Hazlewood was unanimously elected to the pro tem position on that date, and became acting lieutenant-governor. For the session, the Hazle-

Hazlewood Labor Aids Whole State

In a quarter of a century a lot of legislation flows over the desk of a Texas Senator.

Especially if it is a crucial quarter century when Texas is changing from a predominantly rural state to a predominantly urban, industrial state.

Those are the years during which Grady Hazlewood has been serving in the Texas Senate.

Properly a member of the State Legislature must first serve the interests of his constituency. He is in the capitol as the advocate of his district, the representative of the people who are his neighbors.

Under the system of government guaranteed to the people of the United States by the US Constitution---a Constitution which in turn assures that the people of a state shall be guaranteed the same kind of government in their states---the legislature, the representatives of the people, make the laws.

It was assumed by those who hammered out the Constitution that good government would come from the healthy compromise that must be reached by men who truly represent their own areas.

Some of the finest hours of Senator Hazlewood's years have been spent in working out good legislation for all of the people of the state ranging from loan funds for veterans and students to a persuasive battle to knock out so-called merit rating system on drivers insurance.

But the record of Grady Hazlewood, Senator from the 31st District of Texas, is even more impressive.

As one of his long-time supporters said, "I don't know where we would find anyone who knows ranching and farming, oil and gas and carbon black, manufacturing and transportation and wholesale and retail problems as Grady does. Then you have the problems of people--school teachers and farmers, labor and management, youth and old folks--Grady knows how to think about all of the people.

"Up here in the Panhandle we have lettuce growers, just as the Valley has. We have as many cotton problems as East Texas. In fact, we have every agricultural problem the rest of the state has except fish, forestry and rice."

Few legislators, state or national, represent more diverse constituency than found in the Texas 31st Senatorial District.

The "Old Gray Fox" has left his mark on the pages of Texas History.

Grady Hazlewood labored for the Canadian River Municipal Water Authority which made possible the creation of beautiful Lake Meredith. That was a long, hard battle in the Texas Legislature, requiring the

Dr. Joe A. Hill Knew Hazlewood As Student

Back in the early '50s, Dr. J.A. Hill, long time head of the Canyon college which has progressed from a "normal" to West Texas State University, had retired as president emeritus.

A newspaper columnist at the time, Dr. Hill wrote about one of his ex-students.

The ex-student had become a State senator, had served as Lieutenant-Governor and even as "Governor-for-a-day."

And of Grady Hazlewood, Dr. Hill wrote:

1. Grady Hazlewood is honest. He can be trusted. He will not lie. He is not a two-facer. He has a conscience and respects it. His depth of sincerity is a much needed asset in the state Senate.

* * *

2. As a member of our highest state law-making body Grady Hazlewood has far more courage than the average. He is not clay in the hands of self-seeking potters. He has convictions and stands by them. He doesn't like to fight, but, if he must, he will give a good account of himself. He faces duty unafraid.

* * *

3. He has great faith in the common people. Born and reared in a farm and ranch environment, trained in a frontier Christian home, and educated in a democratic college atmosphere he understands the minds and hearts of the people he serves. He believes in them, trusts their intelligence and purpose -- loves them.

* * *

4. Grady Hazlewood is a man of great energy - a tireless worker. There is not a lazy fiber in his being. He believes that all work which serves the real needs of men is honorable. Corny hands and cowboy attire make more appeal to him than do manicured nails and swallow-tailed coats. And he would rather attend a county fair than a high-falutin' cocktail party.

Senator On Program At Brown Hall Dedication

(From The October 1957 West Texan)

Opening day business of the Board of Regents of Texas State Teachers Colleges here at West Texas State College, Oct. 3, included a special assembly program to dedicate new dormitories.

The regents, governing body for WT and five other state colleges, were honored at the assembly, when State Senator Grady Hazlewood of Amarillo recalled his experiences as a student of the late Mary Morgan Brown, for whom a new girls' dormitory has been named.

President James P. Cornette, in introducing Senator Hazlewood, said the dedication was primarily for Brown Hall because, "while there is a new dormitory bearing the name of R.A. Terrill, there was another building formerly named Terrill."

Present for the dedication was Mrs. Alice West of Longview, sister of the late Miss Brown, and Miss Helen White Moore, assistant professor of English at WT, niece of Miss Brown.

Senator Hazlewood took private speech lessons from Miss Brown in 1919, and related several stories of "her help to a country boy from Silverton."

"It is proper and fitting that we can honor the memory of that wonderful woman, Mary Morgan Brown," the senator said.

Frank E. White of Cleveland, president of the board, spoke at the assembly in response to a welcome from Dr. Cornette. Each regent and visiting college official was introduced.

The board's business sessions opened Thursday morning, with local committee meetings, when each college presented its report to groups of three regents composing its "local committee." These sessions continued throughout the day, and were held in the Panhandle-Plains Historical Museum.

Regents and college officials were guests at luncheon Thursday of the Amarillo Rotary Club in the Herring Hotel. Wives of the visitors were luncheon guests of Mrs. Henry Sears in Hereford.

WT's president and business manager honored board members and other visitors at dinner Thursday at the president's residence.

Canyon's Chamber of Commerce was host to visitors at a luncheon in the college Blue Room. Among special guests were representatives of the Amarillo Chamber of Commerce, executive committee of the Panhandle-Plains Historical Society, directors of the WT Ex-Students Association, West Texas Activities Association, West Texas State College Foundation, and Buffalo Touchdown Club.

WT's faculty honored the visitors Friday evening at a barbecue held in Palo Duro Canyon State Park.

Official inspection of WT's new buildings were made by the board and representatives of

Senator Hazlewood's Heart With Education

Amarillo Globe Times
Amarillo, Texas

AUSTIN -- (Special) A cab driver listened to the conversation between the fares he carried from the airport into downtown Austin. When he reached their destination, he turned to the tall man in the group and asked if he was Senator Hazlewood.

Tall Grady Hazlewood acknowledged that he was.

"Well, I want to thank you," the cab driver told his bewildered fare.

"I'm going to school at the University, getting my master's degree under the Hazlewood Act," he went on to explain.

It was the first but not the last time Sen. Hazlewood was thanked for the Hazlewood Act. For a long time, he did not even know that the act bore his name.

This was a bill he passed in 1943, in his second session in the Texas Senate. Before the national GI Bill of Rights was conceived and lasting long after the GI Bill's college provisions expired, the Hazlewood Act gave Texas veterans of World War II and the Korean war the right to a free college education.

It is still in effect and still gratefully acknowledged by its beneficiaries in sincere letters from men who have succeeded in business and the sciences.

Two years ago, as chairman of the Senate Finance Committee, Sen. Hazlewood visited the complex computer center at Texas A&M. The professor-director said he and every man on his staff had done their graduate work under the Hazlewood Act.

"It has given me a greater sense of satisfaction than anything I've ever introduced," Sen. Hazlewood acknowledges.

A constitutional amendment providing an $85 million student loan fund is the Senator's latest move to help youths who need help to stay in school. Sen. Hazlewood has seen plenty of students who needed jobs during his 25 years in the senate. But, he did not have enough part time jobs to go around.

A longtime buddy and former campaign manager, Milton Morris of Lipscomb County, helped work out the student loan program that was submitted by the last legislature. Sen. Hazlewood hopes it will help solve financial worries for youths striving.

Hazlewood is known best among colleagues of long standing for his tenacity. He grabs an issue by the seat of the pants and stays with it until he wins.

This is how it was with the beer tax back in 1955. The 54th Legislature had to pass a $5 million tax bill to finance the interstate highway program and provide more money for mental hospitals. Gov. Allan Shivers had recommended 1 1/2 cents on gasoline and 1 cent on cigarettes to pay the bill.

Sen. Hazlewood decided beer was not bearing its fair share of taxation and set about to shift part of the $5 million burden to brew. He tore into the tax bill with his proposed "Penny-Penny-Penny" (1 cent each on gasoline, cigarettes and beer) substitute during morning debate his argument was effective. The opposition lost a test vote and recessed for lunch to reinforce its position.

Sen. Hazlewood spent the noon recess at his office, opening telegrams that were beginning to arrive in support of his fight. He tacked the telegrams to a large bulletin board and had it placed on an easel behind his desk, on the back row center aisle of the senate chamber. When colleagues returned from lunch, they found the Amarillo Senator had added "the voice of the people" to his own arguments for a tax increase on beer. The Hazlewood substitute was adopted.

The penny on Beer was reduced to seven-tenths of a cent in conference committee. This was the last time the tax on beer was raised and has produced more than $1 million in state revenue over the last ten years.

Veteran observers of the legislative scene remember the beer tax coup as a rare event they have not witnessed in the intervening years. A fight was won out in the open by the power of oral argument.

It was not the fight waged and won by tenacity of the gentleman from Randall County. A succession of state insurance board members remember his ceaseless battle against their scheme to reward safe drivers with automobile insurance discounts. Sen. Hazlewood agreed with the purpose but blasted the method.

Before the board, before the senate and before the public, he shot the merit scheme full of holes and fanned the flames with thousands of letters he received from equally irate citizens. The board amended and amended and finally abandoned its merit system.

With 25 years tenure, Sen. Hazlewood has recently headed the most important committees in the state's most exclusive body. He knows the ropes through experience.

Way back yonder when he was still learning, he realized one session that a college in the district of a prominent senator from East Texas had half the enrollment of his own West Texas State College at Canyon but was getting twice the appropriation of his own school. That is when he learned about "pie-cutting."

He also learned how to enlarge the slice for his own school and put a stop to the unequal slices in the future. The Commission on Higher Education soon afterwards adopted a formula under which all colleges were to be treated alike.

"It's like bootlegging on the public square," Sen. Hazlewood reflects on legislative vices such as the pork barrel. "Someone's going to see it and stop it."

"But, even now, a hog will

Preferred Life Underwriting Company, both of Dallas.

He told the Senate that an independent audit of the company by members of the state auditor's department verified an examiner's report on the companies turned in last June. He said in spite of the "red flags" in the report, no action was taken by the commission's legal department, and that there has still been "no positive, effective action taken," by the commissioner.

Hazlewood said the report on Preferred "was the same old story we have listened to in the past." He told the Senate the report indicated that the president of Preferred Life Insurance Company owed the company "more than $174,000," and that "the underwriting company of which the same president is 98 per cent owner, owes the stockholders of the insurance company almost a million dollars."

The status of Harrison is still in doubt. He was rejected by the Senate by a reportedly close vote of 15-14, with one voting "present" and one absent. The Insurance Board has requested an official ruling from the state's attorney general as to whether Harrison's confirmation was necessary by the Senate, and whether he is still commissioner or can act until another one is named.

Hazlewood said, "How on earth the members of the Senate could have done anything else but reject this man and still have kept faith with the people of Texas, the oath they took to uphold the law, and gone out of here with a clear conscience would be more than I would be able to understand."

Spectacular.

man wrote the Panhandle senator.

Approval came from high and low places. In Grady's correspondence files is a letter from E.S. James, editor of The Baptist Standard, warmly commending the Hazlewood stand.

"I want to thank you for your interest in the common person of Texas," wrote a Houston cafe operator.

"Any time you want to run for governor, you have my vote and support," wrote a Waco man.

"What this state needs are more men like yourself with the courage to fight for the people as a whole," wrote a Houston woman. "You are the type of man that should run for governor of this state."

Said a San Angelo manufacturer: "I just hope that you will run for an office for which I would have the pleasure of voting for you. You have really taken the burden of the automobile owners on your shoulders and I wish you all the luck in your courageous crusade."

"Well done!" said Matador attorney John Hamilton.

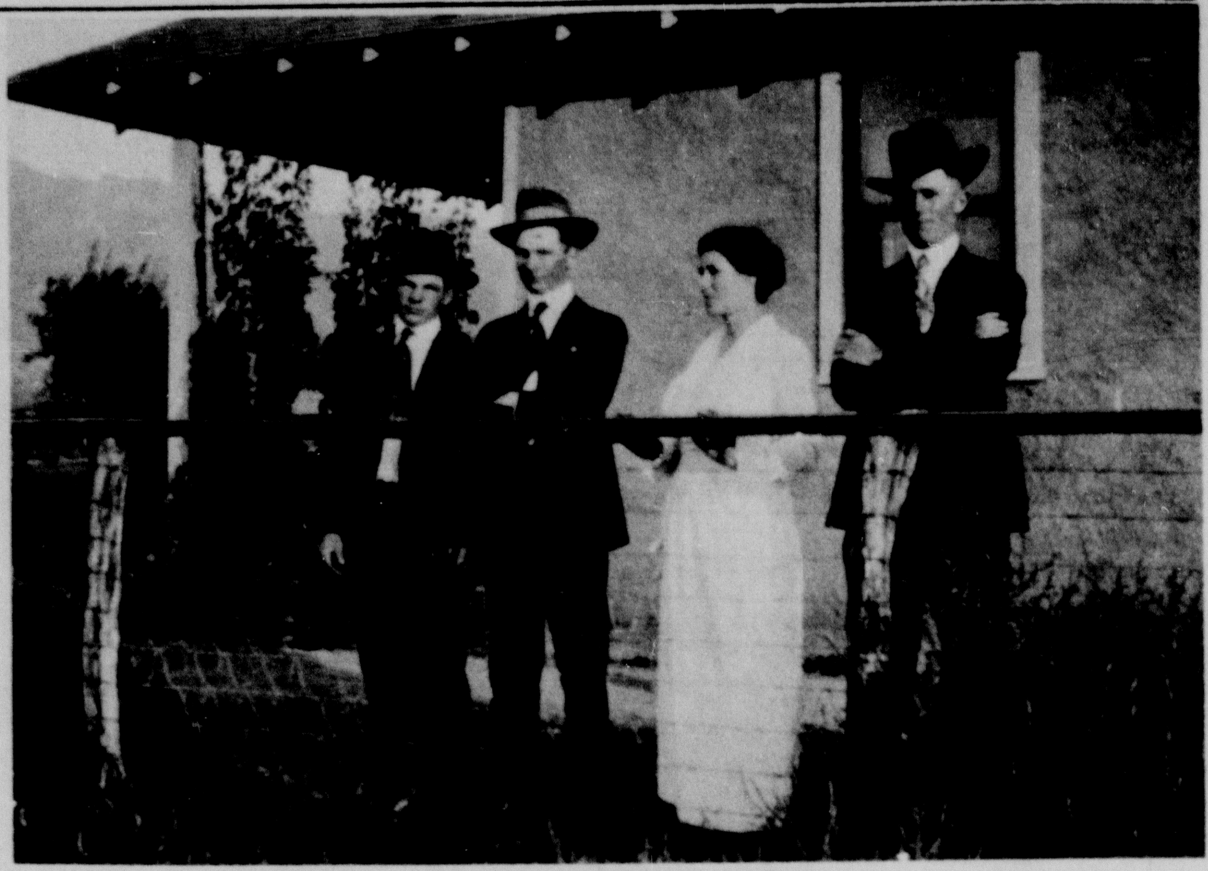
working their way. And those kids working their fingernails off will be the ones to save the country from the kids with Cadillacs. And you want to come along here and put a head tax on them," he chided.

Hazlewood then blasted fellow members for cutting a proposed beer tax that he introduced in the 1955 session from one cent a bottle to seventenths cent a bottle, a cut which he says, had it not been made, would have raised the money they seek through the tuition increase.

"They holler that the tuition hasn't been raised in 25 or 30 years, but I tell you the tax on beer hasn't been raised since the 1930's," he continued.



The three oldest Hazlewood brothers are shown here with their mother. The boys are Wallace, Grady and Emmett.

securing of water compacts with other states. The Enabling Act of 1953 was a milestone.

Farther back in the Hazlewood record is the establishment of a regulation that would allow carbon black to be made from sweet as well as sour gas increasing the price to Panhandle gas producers.

Another important milestone was farm-to-market roads legislation under which virtually all of the Panhandle roads were built except for major highways.

It was back in 1951 that Grady got his first break on pulling appropriations for West Texas State into line with the budgets given other state schools.

The win came near midnight March 15, 1951, when the Senate Finance Committee gave a surprising 10-6 favorable vote for a biennium enlargement of $138,000 to West Texas. Earlier a subcommittee had turned down the increase.

Since that time, Hazlewood has kept the High Plains university in the forefront of appropriation committee thinking.

The Panhandle Plains Historical Museum had its first nod from the legislature back in the 1940s when Grady persuaded it to match funds collected from the sale of "bricks" to Panhandle school children. These funds helped provide this area with one of the best Western museums in the world.

Since that time Hazlewood has shepherded other museum appropriations and improvement plans, the latest culminating in a grant to establish a Hall of Government at the museum.

Hazlewood's hand was in the tax remission bill which assisted Higgins after a devastating tornado hit that community in the spring of 1947.

He helped to blaze the legislative trail for the first court of domestic relations (Potter County) in the state.

He pushed legislation for the first appropriation of state school aid for Boys' Ranch, permitting establishment of a school with standards equal to other public schools of Texas.

Then there was another trailblazing bill---one creating the first city hospital district in Texas in Amarillo.

Grady was a leader in the battle to keep avenues open for the building of a medical school in Amarillo.

All of these are seemingly "local" bills but each added something to that "state of mind" known as Texas.

Acted. . . .

woods moved into the special apartment in the Texas capitol, which is the Austin home of the lieutenant-governor.

An Austin newspaperwoman, who went over to the Capitol to interview Mrs. Hazlewood at the time, wrote a description:

"The tall wide windows of the Capitol rooms are largely responsible for the gracious appearance of the apartments. The Hazlewood's living room has medium light green walls and a beige carpet, and the large windows are draped in green brocade. The high ceilings are made lower in all rooms by paneled wainscoting. The apartment has a living room, a smaller morning room used as a family living room and study, one bedroom, and a kitchen complete with automatic dish washer.

"The Senate apartment is equipped with the basic essentials for housekeeping such as china, crystal and silver, and since Mrs. Hazlewood is in Austin for so short a time on this special session she has not supplemented these with her own things."

On Feb. 28, 1950, Gov. Allan Shivers made a short trip to Mexico. Governor Hazlewood immediately proclaimed "Panhandle Day" and a lot of Amarillo citizens went down to the capital to help celebrate the event.

Wes Izzard, publisher of the Amarillo Daily News, made a presentation of a silver service, a gift of Grady's friends, during a banquet in the swanky Austin Club.

Sen. Hazlewood was serving his third term in the Senate at the time, having been elected first in 1940.

Canyon Man Commissioned

FORT SAM HOUSTON, TEX. (AHTNC) --Eugene D. Colgan, 25, whose wife, DiAnne, Canyon, was named a distinguished military graduate of the Army Reserve Officer Training Corps (ROTC) program at West Texas State University and commissioned a second lieutenant in the Regular Army, Aug. 26.

Lieutenant Colgan will attend the basic officer course at the U.S. Army Armor School, Fort Knox, Ky., and then be assigned to Germany.

The lieutenant was graduated from San Marcos Academy in 1958 and received his bachelor of business administration degree from the university this year.

Rites For Resident's Relative

Funeral services for J.M. Husterson, 92, were conducted in Dallas last Monday.

Mr. Husterson, who died September 4, was an uncle of Tom Brasher of Canyon.

Brasher attended the funeral.

Survivors include his wife, three sons and three daughters.

Senator. . .

(Continued from Page 1)

know anything we can do when we have a Supreme Court playing a dual role of legislators and adjudicators.

"Now on water I think we ought to have a bond amendment that would guarantee loans to municipalities and water districts. The district should have the right to have backing on their bonds and the backing should be passed on by nine or 12 widely-scattered appointees with experience in financial matters. They ought to see to it that the loans are paid back without any state help.

"That state guarantee ought to cut interest rates down to three or three and a half per cent. I don't know what they are paying now. These are just thoughts walking around in my head.

"But I know we've got one of the largest irrigation areas in the state right there in the Panhandle and we're using our water fast. We get four-inch rainfalls and it just runs off. We could use that water to replenish the underground supply but it takes money."

"Say this is a pretty good file on oil and gas better keep that one," he said of a manila folder that was shifted from a bookshelf to his desk.

"Well, now let's see: I'll have a drivers license law that's the one that sets the age for licenses at 16, cuts out the 14-year-old drivers. Had one last session to make young drivers responsible for their violations. Couldn't even get it out of committee.

"And there'll be one setting up a hospital district for Amarillo. I haven't had time to work on those yet. When I get a chance to do a little dictating on them I'll get them in shape; and one or two on juvenile delinquency--one of them a parental responsibility law.

"Jean, give me a copy of that bill I drew up. Here's one I have ready to go. It reduces the age of juveniles (for purpose of prosecution of felonies) from 18 to 15 for girls and from 17 to 14 for boys.

"See here, it says that above the age of 10 they can be tried before a jury as in any other criminal case and it's up to the jury to decide if they knew what they were doing and should be prosecuted for a felony or sent to a juvenile home."

"We've got these young scamps up in the Panhandle that commit crimes and dare you to do anything to them--like the ones that painted up the school bus."

"Once I get all this clutter cleaned out I'll get to dictating. I can't do anything without a clean desk.

Double Ring Nuptials Read

Before an altar banked with greenery in the new Progress Baptist Church near Muleshoe, Miss Patricia Anne Chitwood and Jerry Dwain Hutton were united in marriage.

The couple was originally married June 1 in Juarez, Mexico.

Parents of the couple are Mr. and Mrs. E. D. Chitwood, Jr. and Mr. and Mrs. Horace Hutton, all of Muleshoe.

Rev. B. C. Stoneciper officiated at the double ring ceremonies August 28th.

Given in marriage by her father, the bride was attired in a formal length gown of candlelight silk organza, featuring a portrait neckline edged in tiny seed pearls. The bodice and long petal point sleeves were of re-embroidered alencon lace. Seed pearls also edged the lower bodice and midriff. The controlled bell skirt of silk organza extended into a full chapel sweep. Re-embroidered lace motifs accented the front of the skirt and the train.

Her fingertip veil of illusion was attached to a crown of seed pearls. The bride carried a bouquet of cascading streamers of Frenched white carnations entwined with picot satin, lilies of the valley and ribbons of rosettes. White orchids with gold throats nestled in the center to form her going away corsage. The bouquet topped a white brocade covered Bible which was borrowed from the bridegroom's sister, Mrs. Freddie Parkman.

Sharon Hutton, sister of the bridegroom, served as maid of honor. Best man was Jasper Scheer, Plainview, former roommate of the groom at West Texas State University.

Candlelighters were Susan Woodcock, Albuquerque, New Mexico and Miss Linda Weaver, Lazbuddie. Guests were registered by Mrs. Travis Bassire. Ushers were Richard Chitwood and Terry Hutton.

Susie Tanner, organist, accompanied her sister, Brenda, who sang "Because", "I Love You Truly" and "The Wedding Prayer" as the couple knelt on a white velvet kneeling bench at the close of the ceremony.

A reception, immediately following the ceremony, was held in the home of the bridegroom's parents. Gold and white, the bride's chosen colors were carried out in the decorations.

The table was covered with a white net and satin cloth over taffeta which was decorated with love birds and flowers of jeweled and sequined felt. Tall white tapers in crystal candelabras flanked each side of the four tiered bride's cake. A silver service, belonging to the paternal grandmother of the groom, completed the table decoration.

Members of the house party were Miss Eva Dean Ivy, Miss Gayla' Seaton, Miss Martha Moss, Miss Wynell Barnes, Miss Elaine Embry and Mrs. Freddie Parkman.

The bride wore an ivory knit dress with matching accessories and an orchid lifted from the bridal bouquet as the couple departed for their wedding trip to points in New Mexico and Colorado.

A graduate of Lazbuddie High School, the bride attended Texas Christian University at Fort Worth.

The bridegroom, a graduate of Muleshoe High School, attended West Texas State University in Canyon. The couple plan to make their home in Canyon and will both attend the University.

Grandmother Has Very Eventful Life

BY LORENA MILLER

Mrs. T.T. Fain, 1301 4th Avenue, has been a Canyon resident since 1941.

Mrs. Fain, better known as Lillian, is the sole survivor of a family of ten children including five who were older and four who were younger than herself.

Her parents, the late John Winneys, were residents of Tyler. Mrs. Winney, originally of Alabama, came to Tyler on a visit when a girl and married Mr. Winney.

"Mother didn't return to Alabama until after she had reared her family," laughed Mrs. Fain. "She first came to Texas with her brother who went to join the Army and fight with his three brothers and father during the Civil War."

"My father was originally from Michigan," related Mrs. Fain.

Born January 20, 1877, Mrs. Fain was reared in Bell and Grayson Counties. She married T.T. Fain January 1, 1902 in Collingsworth County, north of Wellington.

"We had a real nice home wedding," comments Mrs. Fain. Her husband, who died in 1939, was a stock farmer near Wellington.

"We raised our own hogs, chickens, and Hereford and Jersey cows then," related Mrs. Fain. "With our family of five children we used a lot of milk, but all that was left served as good food for the chickens and hogs."

"During the depression years we had quite a time," said Mrs. Fain. "We were lucky enough to be able to raise our own food and didn't suffer too much for anything."

"We were living at Wellington then," related Mrs. Fain. She moved to Canyon with her daughter and son-in-law, Mr. and Mrs. R.D. Oldham. Oldham is a brick mason and his wife has been a typist at West Texas State University for about 20 years.

Mrs. Fain's other children include Everett W. Fain of Wellington, Winney Allingham of Atchison, Kan., Watters Fain of Canyon, and JoFrances Pendergraft of Amarillo.

Mrs. Fain also has nine granddaughters and one grandson of whom she is proud. She also has 11 great grandchildren among them Robert Canada who will be a student at the University this fall.

Grandchildren and great-grandchildren living in Canyon include Mrs. Jimmie Golden, Kevin and Becky, Sue Cook and Shawn, and Kay Yarbrough.

An active grandmother, Mrs. Fain enjoys piecing quilt tops, hooking rugs, and crocheting. Among her most recent projects was a crocheted bedspread featuring an intricate pattern.

"I used to make all my own clothes and clothes for the children but it's hard to get the light coming right to sew much now," said Mrs. Fain.

"Canyon has really grown since we moved here," Mrs. Fain said. "Many lovely homes have been built in all directions and homes are going up faster than ever now."

"Of course we have a lot of lovely yards and flowers in Canyon too," related Mrs. Fain. "But when I came to Canyon I told the folks I didn't plan to work in the yard since we always raised a garden and yard down at Wellington and my age was beginning to tell on me."

Active in community affairs, Mrs. Fain is a member of the Social Pioneers, Canyon Mother-in-Law Club, and serves as secretary for the Dorothy Latham Circle of the First Baptist Church where she is a member.

GRANDMOTHER T. T. Fain shares her experiences as a mother, homemaker and grandmother with our readers this week. Mrs. Fain is shown with a crocheted bedspread which she recently completed.

Cowboys Rope 'em Ride 'em, 32-8

Turkey Turks just couldn't get their fire lit Friday night in Happy's Cowboy Corral, as the hosts romped to a 32-8 victory in the season opener.

Sparked by two key breaks early in the game, Happy began their scoring spree midway in the second quarter, after both teams fought a strong defensive battle.

The Cowboys, guided by Coach Ricky Mantooth, struggled to the Turks 25 yard line before they gave up the ball on downs. A pass from quarterback Gary Culp to Bill Vernon did not net the needed yardage for a first.

But the driving Cowboys threw the Turkey visitors for a loss to the 14 yard line and took over on downs. Leading the defensive unit for Happy were Bob Robinson, Richard Todd, Dale Wells and Larry Stevens.

From the 14, Culp tried to hit Mark Maynard, but the skin slipped through his arms. But the second play proved the strength, and Culp scurried around end for the first touchdown. With 5:33 left in the half, Happy tried for the extra point, but Culp's kick was blocked. Happy led 6-0.

The quarterback kicked off to Barnhill for Turkey, but he was stopped on his own 44 by Stevens.

Turks picked up two firsts in their series, but lost the ball to downs on the Happy 26. James Haley, Jackie Schiller, and Dean Bryan dominated the defensive side for Happy during the series.

Cowboys shot into action with a minute left in the first half. Culp completed a pass to Vernon, wno totaled 51 yards to put the skin on the Turks 29 yard line.

With brother Wicky Culp running spectacular interference, Culp skirted the right end for the second Happy tally. Randy Johnson kicked for the extra point, and with 56 seconds left in the half, Happy was on top, 13-0.

The half ended with Happy in possession on the visitor's 44.

At half, Happy led in most departments with 8 first downs to 3 for the Turks. The Turks had attempted 10 passes and Happy had tried 4. Happy's Dean Bryan intercepted one Turkey aerial early in the first quarter. The Cowboys completed 2 passes and the Turks completed 3.

Happy accepted the ball at the beginning of the second half as Todd carried to the Happy 43. Johnson carried on first down for a gain of 1, and freshman Wicky Culp netted 14 yards on a double reverse handoff.

On first and 10 at the Turkey 43, Maynard toted the ball but was thrown for a loss, then Johnson picked up the yard on the next play. With third and 10, Culp was thrown for a 6 yard loss on a keeper, and he punted from the 49.

A major break again boosted the Cowboys as the Turkey punt receiver dropped the ball, and Vernon dropped on it for a Happy recovery.

But Happy was unable to move the ball past the Turks' 14, and again gave up the ball deep in visitor's territory.

But the Turks were held tightly on the Happy 38, and Happy took over after a 12 yard punt on their own 26.

And the little dynamo from Happy, Wicky Culp, finally found his looked for hole on the first down. Picking up key blocks from teammates, Culp trotted downfield for a 51 yard run, and Happy was again in scoring position. Johnson armed the skin on the first down from the Turk 23, picked up 6 yards. And Maynard carried from the 17 for the touchdown.

Johnson's kick was no good, and at 2:10 left in the third quarter, Happy led 19-0.

The Culp brothers made another nice combination as younger Culp took a handoff from Gary Culp for another spectacular 51 yard run. From the Turkey 15, Johnson picked up 3, and Maynard fought for another 6. On the first down, Wicky Culp armed the skin but was dropped behind the line of scrimmage for a loss of 4. Gary Culp kept the ball on second down, shot around right end, and fumbled the ball as he ran over two Turks.

Maynard scrambled for the ball and recovered it in the endzone for the Happy score. Johnson's kick was good and with 8:24 remaining in the last quarter, Happy was ahead 26-0.

But the Turks found their opportunity for scoring on the next series. Hamner picked up 3 yards on first down, and Johnny Mullin found a hole and scurried 56 yards before Bill Vernon dropped him on the Happy 4.

Hamner shot through the middle for the alley, and carried again for the extra points. With 7:21 still remaining in the game, Happy was on top 26-8.

Nine plays after the kickoff, Happy scored their final tally. On first and 10, a pass from Culp to Wicky Culp fell short, but Culp carried on the second down and ran from the Happy 36 to the Turks' 48. Younger Culp added 16 yards to Happys' total and with another first and 10, the ball rested on the Turkey 32.

Another Culp pass fell incomplete, but Maynard picked up 2. From the 30 Culp hit his receiver Mike Starker who dodged Turks to the 4. Johnson carried for 1, and Wicky Culp was dropped for a loss of 7. On third down, quarterback Culp kept the skin and pushed across for the final score, 32-8.

Turks lost the ball again as Curtis Fowler recovered a fumble, but Happy ran the clock out before further plays could be called.

family.

Graduated in 1923, Andrine went off to Childress to teach and Grady set out for California to get his law degree.

A neighbor was shipping some hogs to California and Grady offered to be herdsman, gaining free transportation thereby. Besides, hadn't everyone said that gold grew on trees in California?

It did. Oranges. And Grady paid his expenses during the year at the University of Southern California by working in an orange juice stand. But he came back to Texas for his law degree which he received from the University of Texas.

In 1927, he and Andrine were married and he hung out his shingle in Amarillo as a fledgling lawyer. He served as assistant district attorney and when the incumbent district attorney went to Washington as an attorney for one of the New Deal agencies, Grady made his first political race.

He won and served as district attorney for the 47th Judicial District for several years.

In 1940 Senator Clint Small announced his withdrawal from the Texas Senate. Grady entered the free-for-all for the top political post of the 31st district---then containing 26 counties instead of the present 16.

He was always a hard campaigner. The late Lewis Nordyke told the story in his "Random Thoughts" in The Daily News.

"Back in 1940, when Grady Hazlewood of Amarillo and Max Boyer of Perryton were candidates for the state senate, the old 'district vs Amarillo' fight got into the campaign, and Max's friends started pounding the thought that Amarillo was trying to hog the Panhandle.

"One night Hazlewood was going through the Amarillo telephone directory and spotted Max's name. Boyer had a branch campaign office in the Herring Hotel. Then Hazlewood went forth saying: 'There has been a lot said about my being from Amarillo. Well, look in the telephone directory. My opponent lives in Amarillo. Lives in a 600-room house.' "

Generally, in the years since, the senator has had little opposition at election time. But he has had to make enough races to keep his hand in the game. In 1962, he was opposed for the first time in both the Democratic primary--by a one-time house member, Charles Ballman of Borger--and in the general election by a Republican, Scotty Ernce. He won both races going away.

In the Texas Senate, Grady has served as chairman of most of the powerful standing committes. He represented Texas in the 1963 meeting of the World Petroleum Congress in Frankfort, Germany.

He was a delegate to the White House Conference on Aging, as one of the governor's appointees to represent Texas.

Dr. and Mrs. Manus R. Foster of Dallas were dinner guests of the Mark Fosters recently.

T. W. Henderson returned Tuesday from a weeks trip to Hollis, Oklahoma and Dennison where he visited with relatives.

Mr. and Mrs. O.C. Free were in Dimmitt recently to visit with Mr. and Mrs. Burt Andrews.

Mrs. J.W. Hennington is visiting with her daughter, Carol Brundige, and family in Albuquerque, New Mexico this week.

get out if he can get his snoot through the fence," he concedes.

The Panhandle-Plains Museum at Canyon Palo Duro State Park have been two of the happier projects on Sen. Hazlewoods long agenda.

Admirers of Palo Duro Canyon wanted the 15,000 acres preserved for its beauty and Chicago heirs to the property were willing to sell for $13 an acre when the state park was proposed in 1941.

Sen. Hazlewood was serving his first year in the senate. He was not only a freshman but he was pitted against a deep West Texas Veteran who wanted the same kind of money to preserve the Big Bend area. Neither succeeded in his quest that year.

Former Amarillo Senator Clint Small, representing the Chicago heirs to Palo Duro, worked out a bond arrangement whereby the state could acquire the canyon on a long-term payout and the scheme was adopted in 1947. It was unique then and still is the only park acquisition of its kind in Texas.

Fees paid by increasing numbers of visitors to Palo Duro justified the arrangement. The debt will be paid in two more years.

The Hazlewood era has been marked by other Panhandle projects and problems, the fight to raise the price of Panhandle gas outstanding among them.

And, not the least of his jobs has been a constant alert for legislation adverse to peculiar conditions of the Panhandle and South Plains. Water well drillers were once saved stiff state regulation by a flanking maneuver which allowed creation of local underground water districts for prevention of waste. Sen. Hazlewood's name did not appear on the bill.

Sometimes an area's interests can be best served by pitching the problem to another corner of the state and the Senator from Randall County has been known to use every device in and out of the book in plying a legislative goal.

President James P. Cornette conducted the yearly routine meeting and introduced new faculty members.

Announcements were made by the various special offices on campus, and general orientation instructions were given.

Mr. and Mrs. Rudy Widener and family of San Diego, California visited last week with her brothers, George and Joe Frank, and their families.

Mr. and Mrs. J.G. Ford were in Tulia recently to visit with her uncle, Elmer Partlow, who was in the hospital.
